

Aikawa Hungária Elektronikai Kft. is manufacturing in harmony with the global environment - during the production and assembly of sheet metal formed products. As a citizen with a positive attitude towards the environment, it is also responsible at company level. We aim to achieve the highest degree of environmental efficiency in the production of the most suitable product, using natural resources to the minimum. To coordinate our environmental responsibilities, we have introduced, operate and continuously improve our management system in accordance with the national standard ISO 14001.

To achieve this, Aikawa Hungária Elektronikai Kft.:

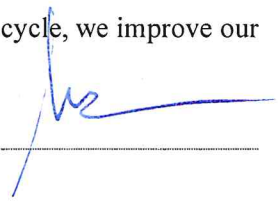

- Ensures that its environmental management activities comply with the legal requirements;
- Continuously monitor and interpret relevant national and EU legislation;
- Ensures the maintenance and improvement of the environmental awareness and professional competence of its employees through regular education and training;
- Pay increased attention to reducing the environmental impact of its activities and the amount of waste generated, thus ensuring the maintenance and gradual improvement of the good state of the environment;
- Regularly informing its employees and contractors to ensure that they accept and comply with environmental legislation and are familiar with our environmental policy,
- Commit to continuous improvement and energy efficiency - to prevent pollution.

Sets, quantifies, monitors and controls measurable environmental targets in order to optimise the use of resources.

In our operations, we consciously promote environmental protection along the following principles:

- Life cycle approach: we consider the use and disposal phases of the product life cycle at all stages of the life cycle of our products and services, from design to development, procurement, production, delivery and service;
- Continuous improvement: following the logic of the PDCA (Plan - Do - Check - Act) cycle, we improve our risk mitigation and management solutions;

28. June 2021, Dunaújváros
